INTRODUCTION.

We take pleasure in once more presenting our modest little Catalogue to our many patrons and friends all through the Southern States. It is true it does not compare with many other Catalogues in gorgeous pictures, and still more extravagant descriptions. These, however, are of no avail to lovers of fine flowers, as from this modest little Catalogue may be selected and ordered hundreds of different plants that will give as much satisfaction, and yield more pleasure for the amount of money spent, than if selected from the most flashy Catalogue in the land. We have fine flowers in our greenhouses, and not overdrawn in colors on our Catalogue pages, and send out good thrifty plants to our customers, so that they also may have fine flowers. Our stock of Roses is all the most critical could desire. All varieties of recent introduction and established merit are offered at popular prices. Our stock of Chrysanthemums has no equal in this country. We have revised our list of varieties, discarding hundreds of older sorts now superseded by varieties of more recent introduction, so that our list of Chrysanthemums to-day does not contain a single variety but what is of high merit, while on the other hand there is not a variety known to plant commerce that is worth growing but what will be found enumerated in our Catalogue. We here wish to thank our patrons for past favors, and respectfully solicit a continuance of the same, and trust by honest treatment and courteous attention to continue this connection to the mutual welfare of both. With best wishes of a happy New Year to all, we remain, most truly,

JAMES MORTON, Manager.

J. J. CRUSMAN, Proprietor.

A Few Points---Read Before Ordering.

Our Terms.

Our terms are invariably Cash with the order.

Express.

All orders for goods not stating the mode of transportation will be sent by Express at the purchaser's risk

Remittances.

In remitting, send Money Order or Draft; if in currency, invariably Register the letter, as we will not be responsible for remittances otherwise made.

Postage Stamps.

When you cannot procure a Money Order and cannot make change otherwise, we will accept Postage Stamps. We would prefer two, five and ten cent stamps.

Our Shipping Facilities.

Our shipping facilities are first-class, and the rate by express or freight from this point are much less to all the States south of us than they are from any of the northern floral establishments; the time occupied in transit is also much less.

Orders for Less Than One Dollar.

No orders for less than one dollar will be sent by mail unless fifteen cents additional to the price of the plants be sent to pay postage. It is quite as much trouble to handle, and requires as much postage to mail, a fifty cent order as it does one for two or three dollars' worth of plants.

When Our Liability for Loss Ceases.

We take a receipt for all plants delivered in good order to carrying company, when our liability ceases, and the plants are at the risk of parties ordering. We make no charge for drayage or packing. If mistakes occur, notify us at once; otherwise, we are not responsible.

Wholesale Trade.

We have constantly a demand from florists and dealers in the South for our wholesale trade list, and here wish to state we issue no Wholesale Trade List. We grow our plants in large quantities, and are able to give the lowest trade price on all goods we offer to florists and dealers. To all such purchasers, we say send us a list of what you want, and we will quote special wholesale rates, and can do as well for you as the so-called wholesale florists that sells to the florists and the florists' customers at the same price.

ROSES.

The Novelties from Abroad for '94.

Perle des Jardins. Canary yellow; very fine; this undoubtedly is the best dwarf yellow Rose in cultivation.

Premium de Charrisseuns. A bright carmine rose, fawn centre.

Queen's Scarlet. A dazzling crimson scarlet, with beautiful buds.

Queen of Bourbons. A clear carmine, changing to clear rose.

Rainbow. A lovely pink blotched and streaked with the darkest Papa Gontier color.

Roi de Cramoise. A bright purplish crimson, full and very double.

Rosa Nabonnand. Imbriated, delicate rose, vivid in centre.

Rubens. A creamy white, with flesh centre; very large and full; superb.

Reine M. Henriette. Bright cherry red; a vigorous climber.

Sunset. Rich golden yellow; a sport from Perle des Jardins.

Souv. de Wooton. Rich deep red; an excellent variety.

Souv. Isabella Nabonnand. Large and globular buds of a charming light fawn and silvery pink.

Souv. de la Malmaison. A noble Rose; the flower is extremely large; color a flesh white.

Safraano. Bright apricot yellow, changing to orange and fawn.

Sombreuil. A beautiful white, tinged with a delicate rose.

Souv. de Mad. Pernet. Beautiful soft, silvery rose.

Sulphureaux. Sulphur yellow; fine in bud; fragrant.

Souv. d'Elise Vardon. Creamy white, delicately shaded with pink; fragrant.

Souv. d'un Amie. Rose, tinged with salmon; very large, full, highly perfumed; an old and reliable sort.

Souv. de Victor Hugo. Bright china rose, yellow centre, edge of petals carmine.

Snow Flake. Also called Marie Lambert; a free bloomer, in fact a white Aigrivina; fine.

Souv. Therese Level. Clear crimson, tinted purple; of distinct, fine color.

The Queen. Pure white; good bloomer and of free growth; a white Souv. d'un Amie.

Triumph de Luxembourg. Rose carmine on a buff ground.

The Bride. The best pure ivory-white Tea Rose; the buds, which are of grand size, are carried high and erect on very bright, smooth stems.

Viscountess Folkstone. Exquisite in form of bud; color white with salmon shadings.

Valle de Chamonix. The back of the petals are a bright yellow, the centre highly colored with copper and rose.

Waban. Resembles Catherine Mermet very much, except in color, which is a rich bright clear pink.

White Bon Silene. This is a sport from the old Bon Silene, differing only in color, being a pure pearly white.

White Daily. Pure white, beautiful and long pointed buds.

Beautiful Ever-Blooming Roses.

This list contains the Best of all the Ever-Blooming Roses, all the varieties having been thoroughly tested by us. They are remarkable for quick and constant bloom, exquisite beauty, and delicious fragrance.

Price from this list 10 Cents Each, \$2 for \$1.00.

Augustine Haleu. This is like Marie Baumann in form, color and shape, but produces flowers with the freedom of a Tea; color dark crimson.

Berthe Clavei. A striped sport from old Souv. de Malmaison; color creamy white, with rose centre; reverse of the petals striped violet and light rose.

Beauty de Grange Hebe. A strong grower, with large double flower of pure white, shading to yellow at the centre; fine for out-door culture.

Countess de Vitzthum. Strong grower, bearing a profusion of large, double, finely formed flowers; color, centre of bright Naples yellow, shading to a lighter tint.

Countess Eva Starhemberg. The bud is long in form, opening into fine double flower of great beauty and heavy texture; color creamy yellow, shading to ochre at the centre; borders of the petals touched with rose.

Charles de Franciosi. Bud is long and nicely formed, of orange-red color; the flower is large and double; color chrome yellow shading to salmon.

Christine de Nove. An elegant deep purple red Tea Rose of fine texture and size, and is altogether the best new Tea Rose of last year.

Cleopatra. Pale pink edged with rose; petals large and smooth; long pointed buds, vigorous and fine.

Climbing Perle des Jardins. Identical with Perle des Jardins, except that it is a vigorous climber; a grand addition to our Roses; will rank with the very best.

Crown Princess Victoria. A sport from Souv. de Malmaison; flowers milk white, tinted with sulphur yellow.

Duchess Marie Salvati. A strong, vigorous grower; flower large and double from long-pointed buds; color a fine chrome orange, with shadings of rosy flesh, the centre a pure saffron; sweet violet scented.

Doctor Grill. Large, handsome, clear buff flower, passing to rose and fawn; delicately shaded with yellow.

Dr. Dusillet. A strong grower, with large flowers of salmon yellow color at the centre, changing to clear yellow at the ends of the petals, also shaded rose.

Danmark. This has all the good qualities; looks more like a finely-built Hybrid Perennial; a strong, vigorous grower, producing flowers as freely as La France.

Edmond Sablayrolles. The flowers, produced in clusters, are of medium size; color bright carmine in the centre, the outer row of petals light pink.

Ebiza Fugier. A seedling from Niphotos, which it greatly resembles in form of bud, while the color is deep cream, and sometimes edged pink.

Elise Heymann. A vigorous, free flowering Rose, producing quantities of medium sized flowers; color, light yellow, shaded with salmon-yellow, centre rosy peach.

Eugene Jardine. Beautiful yellow climbing Tea.

Eli Beauvillaine. It is a very rapid grower and produces deep buff colored flowers, very similar in color to the well known Sunset Rose.

Edward Littaye. Color rosy carmine, tinted light pink, often shaded with violet pink; we are impressed with this Rose.

Frances B. Hayes. A hybrid, between a Bourbon and a Tea; bright crimson; an exceedingly free blooming Rose.

Gustave Nadaud. Flowers bright vermillion, shaded with lake; centre rosy, large, full and cupped; outer petals large, those of the centre smaller and more erect; growth vigorous.

Grand Duchess Hilda. Moderate in growth but vigorous enough to produce nice flowering wood; flowers have large outer petals; color a nankin yellow, with ochre centre.

Henry M. Stanley. The color is a rare shade of amber rose, delicately tinged with apricot-yellow toward the centre; reverse of petals a clear buff-rose; the flowers are of good substance, extra large, finely formed, very full and fragrant.

Henry Brichard. A splendid grower, producing quantities of buds, which are large and quite double, nearly white, shading into a bright rosy-carmine centre.

Jeanne Cuyler. Long, pointed bud; color a rich deep pink; said to force well; promising. **Feature Guillaume.** A very vigorous grower; flower large and double, and of good form; with beautiful long buds; color a clear red, touched with salmon; centre a coppery red, with pale silvery shadings.

Jules Lemaitre. Strong grower; flowers large, double and of globular form; bright rosy carmine; sweet scented.

Lady Zoe Brougham. Brilliant fawn yellow, darker on edges; large, full, imbricated, long buds.

Lady Castlereagh. A distinct Rose of vigorous branching habit; foliage large and leathery; a continuous and late bloomer; flowers very large, full, beautifully formed; petals thick, round and smooth; color soft rose.

Lady H. Grosvenor. Flowers flesh color, large, full and globular; an exceedingly free and effective variety; also a fine forcing Rose.

Mad. Pierre Gaillot. Vigorous in growth; color yellow, bordered and lined with rosy carmine, reverse of petals yellowish white.

Maurice Rouvier. Of remarkable vigor for a Tea Rose; flower of enormous size and quite double, splendid form; color soft tender rose, shaded and varied with red.

Mad. Louis Patry. Strong and vigorous; flowers large and well made, globular in form; color deep purple rose, shaded with brilhaut china rose in the centre.

Mme Martha du Bourg. The flower is large, perfectly double and of rounded form; the outer petals recurve at the edges, showing a nicely pointed centre; the color is a creamy white, touched with carmine and pale heliotrope.

Marion Dingee. This is one of the best new Tea Roses; flowers large and full; color bright crimson; produces beautiful buds; a profuse bloomer.

Mad. Veuve Menier. A strong and vigorous grower, producing buds in great profusion; pale light rose; flower of good size, double, and free flowering.

Mad. A. Veysset. Striped La France. A magnificent new Rose, identical in every respect with its parent, La France, except it two particulars—it is much stronger in growth, and the flowers are beautifully striped and shaded with a delicate white.

Miss Marston. Large full buds; when open presenting a full double flower; color, light rose, shaded flesh, centre a rich peach pink; a good variety.

Mrs. Paul. Beautiful pearl white in color with satin sheen; this is like Malmaison in growth and form of flower; won the gold medal prize over all competitors in its class.

Prof. Ganiviat. Vigorous in growth and free in bloom; flower double and of good form; of the color of Sony, Th. Levet.

Reine Olga de Wurtemburg. Large, full and fine; color rosy flesh, delicately tinged with salmon-yellow, petals margined with crimson; blooms in clusters.

Senateur Loubet. Dwarf but vigorous; very large, finely formed flowers; outer petals light tender rose, centre metal yellow, heightening sometimes to crimson.

Sony Clairvaux. Color bright china rose, the base of the petals apricot shading to nankin yellow, with touches of carmine.

Triumph de Pernet Pere. Flower large, double and of heavy texture; bud long and nicely pointed; free in bloom.

Eight Superb New Roses For \$1.00.

All are Ever-Blooming and Fragrant. We take pardonable pride in offering this collection of new Roses, for not only are all the sorts distinct but valuable.

Kaizerina Augusta Victoria. Color a pure ivory white; a large full flower, magnificent in bud; stems long and bearing large, strong canes, with handsome foliage.

Mad. Pernet-Ducher. A good, well formed bud, quite long and of a distinct shape and form; color a light canary yellow; the first distinct yellow Hybrid Tea; good, strong, and of robust growth.

Mad. C. Testout. It is clear pink in color; there is nothing in the Rose line that can approach it in color, and the flower is as large as Baroness Rothschild, and as free as La France.

Pearl Rivers. This fine variety is the result of a union between Devonensis and Mad. de Watteville; it partakes of the leading characteristics of both parents, but resembles the latter more closely; the flowers are large and quite full, with fine peachy red buds; the ground color is ivory-white, having the petals delicately shaded and bordered with pale rose; very beautiful; deliciously sweet.

Bridesmaid. A new and beautiful pink Rose of American origin; the buds are Mermet shaped and never come deformed; it is a very vigorous grower and free bloomer, and said to excel the Mermet for its lasting qualities when cut.

Mrs. Jessie Fremont. A seedling from Duchesse de Brabant; not quite as large buds, but more double and better substance; color white passing to deep rosy flesh, sometimes shaded coppery red; very sweet; a vigorous grower and free bloomer.

Mad. Olga. Deep creamy white of great texture and substance; a most magnificent budding variety; free growing and also free from mildew.

Medea. Flowers bright lemon yellow, with canary yellow centres; very full buds, with high centres; foliage dark and thick, in color like Perle; this variety produces most of its buds of immense size, and very double; texture firm and heavy.

Roses From Five Inch Pots.

We grow the following list of Roses in 5-inch pots. They are all large two year old plants, very bushy, and vary in height from twelve to twenty-four inches, according to the habit of growth of the different varieties. This list comprises many of the newer varieties of recent introduction and excellent merit, and are offered here at the same price as all the old standard varieties. For description see Standard List.

Four Excellent Roses.

METEOR. **THE BRIDE.** **CATHERINE MERMET.** **PERLE DES JARDINS.**

In our estimation these four Roses have no superiors as ever bloomers. Perle des Jardins is the best yellow; Bride, the best white; Meteor, the best red; and Catherine Mermet, the best pink. Thus you have four distinct Roses, the best in their respective colors, that we can well recommend. As we grow these in large quantities, we can send out larger and stronger plants of these varieties than any other varieties we grow. Price for the four, one strong plant of each, \$1.00.

CHRYSANTHEMUMS.

We grow the Chrysanthemum in large quantities here, and the perfection we have attained in the culture of this now famous flower is fully attested by the numerous premiums we have been awarded at the various shows all through the country, as well as the universal admiration of all who visit our gardens each Fall when our extensive collection is in bloom. Our Chrysanthemums are grown in temporary greenhouses **WHERE NO FIRE HEAT IS EVER USED** or forcing in any manner ever resorted to, a point that all growers know is essential to the production of vigorous and healthy plants. Further North where the Chrysanthemum has to be raised through the Winter months in greenhouses that of necessity must be **ARTIFICIALLY HEATED** and a **HIGH TEMPERATURE** maintained, cannot have the vigor nor produce as fine results as those raised in a cool temperature. To the Southern growers we therefore recommend our plants with confidence, knowing that if well grown they will produce the finest exhibition plants, and blooms that will prove a credit and reward them for their labor. The wonderful march of improvement in the past few years has necessitated a rigid weeding out of inferior as well as many heretofore considered good varieties; and in order to become a successful prize-taker at the shows of the present day, one has to keep up with the times by providing himself liberally with novelties and recent introductions.

General Collection of Chrysanthemums.

The varieties enumerated in this list are all good. All old varieties have been discarded to give place to newer sorts of higher merit. Only in cases of much merit have the older varieties

EVERGREEN LODGE,

been retained. This list comprises all the novelties of two years ago, now offered at the following low prices.

Price 10 cents each, 3 for 25 cents, 7 for 50 cents, 15 for \$1.00, Purchaser's Selection of varieties. Our Selection from this list, all named, 18 for \$1.00, by Mail or Express.

- Ada H. LeRoy.** A fine symmetrically formed variety; petals broad and cupped full to the centre; color a deep rose pink; extra large flower; one of the best for exhibition purposes.
- A. Ladenberg.** A full and extremely double flower.
- Advance.** Incurved, of perfect shape, a deep pink.
- Alice Bird.** A large flower of intensely bright buttercup yellow.
- Aleyon.** Very large carmine rose, striped white, reverse rose.
- Ada Spaulding.** Broad and solid; color shading from the purest pearl white to a deep pink on the lower petals.
- Auriole.** A lemon yellow, shading to white as it matures.
- Aristine Anderson.** It resembles Miss Mary Morgan; a decided pink and larger blooms.
- Alezar.** The upper surface of petals a bronze red, shading to yellow at tips, with reverse old gold.
- Anna Dorner.** Outer petals striped and shaded a rich carmine, centre cream white.
- Beacon.** Magnificent full and double creamy white flowers, borne on strong stems.
- Ben d'Or.** Handsome twisted yellow; Japanese variety of immense size; a clear and delicate rose pink.
- Col. Wm. B. Smith.** Immense double high built flower; petals very broad and large, forming a solid mass of the richest bright golden bronze.
- Clara Bertermann.** Opens at first a bronze color, with purplish stripes underneath, and then changes to a beautiful golden yellow.
- C. B. Whitnall.** A velvety maroon, lined in a shade lighter; first approach to this color in the globular Chinese.
- Col. H. M. Boise.** Vigorous in habit; very large, rose-pink flowers with twisted petals, veined with a lighter shade; very full centre.
- Christmas Eve.** A magnificent white of great beauty.
- Comte de Germiny.** A bright yellow, with broad petals, shaded bronze.
- Cullingfordii.** A rich crimson shaded scarlet; very large reflexed flowers, beautiful and distinct.
- Coronet.** The richest orange, incurving to the centre; occasionally crimson stripes on inner side of petals.
- Cyrus H. McCormick.** Very vigorous grower; the flowers are large, a deep, dark yellow, shaded with bronze.
- Clancey Lloyd.** A delicate flesh pink, changing to pure white.
- Gognac.** This variety needs but little description, as we are all familiar with Mrs. Irvin Clark, from which it is a sport, and identical in every way except in color, which is white.
- C. W. DePauw.** Very double; soft pearl pink, with touches of light lavender; of great size.
- Duchess of Manchester.** Best white Chinese variety in cultivation.
- Domination.** A grand variety; flowers creamy white, large and fine.
- Diana.** One of the best whites.
- Duchess.** Deep red, tipped yellow.
- Dr. Covert.** Large golden yellow, deep and bright; heavy in texture, very double and incurving, stems strong.
- Dr. Callandream.** A creamy yellow shading to white; petals very large, broad, inclined to incurve; a very beautiful blossom.
- David Rose.** Rosy claret, edged with silvery white; large and handsome.
- Eva Hoyte.** An immense double Japanese bloom of clearest and brightest yellow; grand for any purpose.
- E. Hitleroth.** Magnificent extra large flower; the petals broad and peculiarly arranged, completely filling the centre; a bright lemon yellow; exquisite and novel form.
- Ella May.** Primrose yellow, apricot centre; extra large and fine.
- Edward Hatch.** An immense variety, incurving grandly, in globe form with reflexed outer petals; color soft lemon and bright pink.
- Exquisite.** Delicate pink; a very fine full headed flower; petals rather broad and standing pretty well out over all.
- Empress of India.** A pure white sport from Queen of England; of same character.
- E. G. Hill.** Immense bloom of bright eat golden yellow; lower petals sometimes shaded carmine.
- Evelleen Stein.** In the way of Bride, but an improvement on that variety; of a delicate white.
- Eda Prass.** A fine, bold and recurving flower; color a lovely white, delicately shaded with blush.
- Etoile de Lyon.** A grand variety; the color lilac, shaded silver, changing to white.
- Ernst Asmus.** Rich chrome, shaded amber, each petal having a line of puce down the centre.
- El Dorado.** Incurved deep yellow; of a dwarf and sturdy habit, with very strong flower stem.
- Elmer D. Smith.** Cardinal red, of a very rich and pleasing shade, fixed upon the back of the petals with clear crimson.
- Flora Hill.** It is of splendid size and heavy texture; outer petals horizontal or slightly recurving.
- Frank Thompson.** The petals very broad and heavy, finely incurving; it is very nearly white in color, only showing a touch of pink at base petals.
- Flora McDonald.** A magnificent large ivory white ball, improved.
- F. Clinton.** Bright chrome yellow, incurved.
- Faultless.** Deep golden yellow; extra large and full; in color and form unequalled; measured over eleven inches in diameter.
- G. W. Childs.** The best deep self-colored crimson variety in existence; massive and of immense size; rich dark velvet crimson.
- Geo. Savage.** Flowers very large; a pure white, with broad, strongly incurved petals; a grand variety of vigorous habit.
- Geo. R. Davis.** An improvement on Mrs. Bowen; color ox-blood red, the reverse old gold.
- G. F. Moseman.** An improved bicolor, being a brighter color; bright crimson, tipped with golden yellow.
- Gold.** As name denotes, this is of the clearest golden yellow, and is perfectly double.
- Garnet.** Showy Japanese variety; the inner side of petals a rich wine red, the reverse still very pink.
- Grandiflorum.** A magnificent variety; petals very broad, incurving so as to form a solid ball of the purest golden yellow.
- Gloriosum.** Very light lemon, with immense flowers, and having narrow petals most gracefully curved and twisted.

- Golden Plumie.** Very late; a clear and bright yellow; free bloomer.
- Harriet Beecher Stowe.** Pure white petals, long, flat and pointed; very free flowering.
- Harry E. Widener.** Bright lemon yellow in color; flowers large; stout stems; flowers erect, without support; incurving, and forming a large rounded surface.
- H. Waterer.** A late yellow, with reflexed petals.
- Harry Balstey.** A pearl pink shading to a Mermet pink; flowers are double, semi-globular, with erect petals.
- H. F. Spaulding.** A grand Japanese variety of most novel shape and effect; color a rich apricot yellow shading to rose, centre petals a clear yellow; bloom solid and double.
- Harry May.** Flower very large, double, and forming a massive sphere; the color deep old gold, occasionally veined red; petals broad and thick.
- Innocence.** Seedling from Mrs. Hardy and as fine in form, but without the velvety pile.
- Ivory.** One of the finest whites now in cultivation; very large, globular and early.
- J. C. Vaughan.** Richest plum crimson; flowers reflexed, very large, strong and stiff stems.
- John Firth.** Petals cup shaped, completely covering the centre; deep Mermet pink, shading to silvery rose.
- Jessica.** Snow white, with yellow centre; very large flowers.
- John Thorpe.** Color the richest deep lake, a new shade; very vigorous and early.
- Joseph H. White.** A large, white variety; a nicely rounded flower of fine size and substance, and perfect purity of color.
- John Berternau.** Immense white flowers of a rather flat form, and very double; the centre a creamy white; the petals quite thick and lightly corrugated.
- J. N. May.** Extra large deep ox blood red, the color of Mrs. J. T. Emlin, but much larger and more double; reverse of petals shaded a copper bronze; full and solid bloom; a magnificent acquisition.
- Jardin des Plants.** A fine old variety; bright golden yellow.
- Kioto.** A beautiful incurved yellow of fine form and habit.
- Kate Rambo.** Pure white; a very large, broad, double flower; florets curl at the tips and slightly incurve.
- Lily Bates.** Very large and perfectly double, clear, bright, rich pink; the petals broad and flat.
- Lizzie Cartledge.** Very large, full and double flower, incurved; the color a bright dark rose, reverse silvery white.
- Lai Tonkin.** Centre white, shaded rose on the outside; flowers large.
- L. Canning.** A most exquisite white, absolutely pure; the flower regular in form; very large and flat petals.
- Lillian B. Bird.** Of the very largest size; the petals tubular, of varying lengths; color an exquisite shade of "shrimp pink."
- Lillian Russell.** Clear silvery pink, incurving and forming an immense round ball of the very largest size.
- Lucrece.** A pure white; largely used for cutting and late decorations.
- Louis Boehmer.** This is also known as the pink ostrich plume; it has the wonderful hair like growth of Mrs. A. Hardy; inside petals of a deep rose, shading to a lavender pink on the outer edge.
- Maria Ward.** Grand size; purest white; very fine.
- Mrs. Lay.** A beautiful large incurved flower; white, with faintest blush lines on edges; extremely double.
- Mrs. Jerome Jones.** Pure white, incurved high round flower, the truey highest type of best Chrysanthemum flower to date.
- Mrs. Gov. Fifer.** The flowers flat, with pure white, broad petals; centre incurving when fully matured; stout stem, with fine foliage.
- Mrs. C. D. Avery.** Petals long, convexed and twisted at maturity; color a new shade, pure damolin yellow, darker than Lincoln or Widener.
- Mrs. Senator Hearst.** Pure white; a full, flowing flower; petals spreading, a little twisted and irregular, and of different shapes and sizes.
- Mrs. Gallagher.** Large bloom, with full centre; a deep maroon, crimson above, paler below.
- Mrs. J. Hood Wright.** Flowers large, full and double, of the purest white, with reflexed, twisted petals; a strong grower.
- Mrs. Robert Craig.** In form the purest Chinese incurved, while in size and texture and general build it has the grandeur of the Japanese; color snow white.
- Mrs. L. C. Maderia.** A perfect, compact globe of bright orange yellow; the petals upright, of heavy texture; of strong constitution; stems stiff, and flowers of large size.
- Marguerite Jeffords.** A large ball of fine amber color; a splendid grower.
- Mr. Hicks Arnold.** A strong growing and floriferous variety, bearing large, full double flowers of an old gold color, and spherical in shape.
- Miss Annie Mandt.** Flower high and compact, perfectly double, incurved, of the purest white; the petals are covered with long hair-like growths, giving it a very unique appearance.
- Miss E. D. Adams.** Very large; petals of medium width, outer ones swirled, as if the flower had been turned swiftly on its stem; color pure white.
- Miss Ada McVicker.** A plant of strong habit, producing immense creamy-white flowers, with broad, thick, reflexed petals.
- Mrs. W. S. Kimball.** Flower very large, full double, pale blush or cream white, with a yellowish centre; the petals are very broad and reflexed.
- Mrs. A. C. Burpee.** Immense; a clear chrome yellow.
- Mrs. A. J. Drexel.** A large flowering early variety of fine crimson lake color; in form it is rounded and beautiful and half globular.
- Mrs. J. W. Morrissey.** Color silvery pink, the inner surface of petals bright rose; grand exhibition bloom.
- Mistletoe.** Of the Comte de Germiny type, with the outside of the petals silvery white.
- Mermaid.** A very delicate yet bright pink, perfectly incurving and closed petals; very delicate in color and finish.
- Mattie Bruce.** Silvery pink in color; of medium size.
- Mrs. J. N. Gerard.** Grand cup shaped variety, closely incurving with age; of large size, and of the brightest peach pink.
- Mrs. Andrew Carnegie.** Bright deeper crimson, reverse of the petals a shade lighter, broad, long and flat.
- Mrs. Alpheus Hardy.** Flowers pure white; on the upper surface of the floret petals is what at first sight appears to be hoar frost or snow.
- Mrs. Libbie Allen.** The color is a yellow of a very pleasing shade; a good variety for exhibition blooms.
- Molly Brown.** A most valuable white variety, for its size, shape and purity.
- Mad. Louise Leroy.** White, tinted a blush; very free blooming, and rather late.

Mrs. C. H. Wheeler. The flowers are of the largest size, and of heavy substance; color a bright crimson on the upper side of petals, while the under side is clear old gold.

Mrs. Frank Thompson. Very large incurved, with broad petals; mottled deep pink, with a silvery back; very distinct.

Mrs. Marla Simpson. Petals very broad and channeled, and closely incurving, so as to completely cover the centre; a fine chrome yellow of largest size.

Miss Mary Wheeler. Pearly white; of immense size; the petals delicately tinted on edges a pale pink.

Mad. Baco. An extra large, deep rose, tipped golden; very double, and a magnificent show bloom.

Miss Minnie Wannamaker. A creamy white, incurving from first opening to finish, when it appears as a snow white ball; is rather dwarf in habit.

Mrs. Mary Morgan. Rich, deep pink; perfect shape; incurved.

Mountain of Snow. Good white; very large.

Mad. Thibaut. Fine dark red; valuable as a late variety.

Mrs. Geo. HaHock. A pearl white; flowers very large and flat; very fine for exhibition purposes.

Mrs. Irving Clark. Pearl white in the margin, shading to deep rose in centre, which is beautifully whorled.

Mrs. Richard Elliott. Another grand yellow; very large, slightly recurved; petals long, of medium width.

Mrs. A. Blanc. Centre of floret erect; outer petals horizontal or drooping, rosy lavender, centre soft clear rose.

Mrs. Vanaman. Cherry red; very large and perfectly distinct.

Mrs. H. Canell. Very rich and broad petals; color of brightest possible yellow.

Mrs. Fottler. Large, full and double flowers of clear, soft rose, the shade of the La France Rose.

Mrs. L. W. Clarke. Deep purple amaranth, silvery rose reverse; very large and perfectly distinct.

Mrs. Jessie Barr. A very fine incurved pure white of large size, with flat, ribbon-like petals.

Mrs. Langtry. An enormous incurved Japanese; the outer petals long and quilled, inside ones flat and most beautifully incurved; color a pure white.

Nymphaea. A new sweet scented variety, the flowers resembling a Water Lily, hence its name; has a most pleasing fragrance.

O. P. Bassett. The color is identical with that of Cullingfordii, while the size, breadth of the petals and general build are grand.

President Harrison. Immense cupped flower, the outside petals salmon red, centre a deep Indian red.

Potter Palmer. Color pure white; flat on opening, but gradually assuming a half globular form of great size.

Progression. Extra large late flowering variety, and remaining in flower up to Christmas; color tints white.

Philip Breitmeyer. The flower is of the very brightest golden yellow.

Pelican. Pure white, shaded cream; petals irregular, flat, half tubular.

Pnritan. White, tinted with rose; large and of good habit, and one of the finest for bush plants.

President Arthur. Immense rose colored flowers, opening in whorls.

Prince Kamontski. Large, incurved; inside of petals bright crimson, outer ones a deep coppery bronze.

Penelope. The color is white; clouded with a very beautiful deep rose, and tipped with blue.

President Spaulding. Very vigorous; a rich reddish purple color.

Robert Bottomy. Pure white; flowers large; very fine.

Rohallion. Petals long, reflexed and twisted; color a dark yellow; a strong grower.

Robt. S. Brown. Will make a magnificent exhibition variety, either as a cut flower or grown in pots; color richest crimson.

Rose Queen. A self color of bright rose amaranth; very distinct shade; flowers broad, cup shaped.

Roslyn. A superb clear Mermel pink, immense in size, having been exhibited twelve inches across; the best pink in congrege.

Shemandoah. Broad flower of immense size, full and double to centre, petals over an inch in width; deep chestnut brown on both upper and lower surfaces, the entire bloom being a solid color without shading.

Superbe Flore. Globular flowers; a carmine rose, lighter centre, white reverse.

Sunny-side. A delicate flesh tint white opening, becoming white when fully expanded.

Sugar Loaf. The color is varying shades of yellow, often shaded bronze, and sometimes perfectly clear; a giant grower.

Tuxedo. Beautiful shade of rich amber; the flowers of large size and perfectly double.

The Bride. This has been placed at the head of all white varieties.

T.C. Price. A perfectly double flower, much twisted and incurved in the form of a corkscrew.

Thos. H. Spaulding. Flowers very large, of a rich red crimson, with golden yellow tips, partially incurved; fine healthy grower.

Uji. The most novel colored flower yet seen; the ground color is a deep drab brown, overlaid with crimson lines.

Victor. Is exceptionally fine and perfect in shape; a rich golden yellow, slightly shaded brown.

Volcanie. Reflexed and plumed variety, the clearest canary yellow; when expanded petals reflex close to the stem.

Vivian Morrell. Large pink and of very fine form.

V. H. HaHock. Rosy pearl, of a waxy texture, the flowers are six inches in diameter; changing to a beautiful curved form.

Violet Rose. A grand double variety; exceedingly free; of perfect form; beautiful combination of violet and rose in color.

Win. H. Lincoln. A magnificent golden yellow variety, with straight and flat spreading petals.

Walter W. Coles. Very bright reddish terra cotta, reverse pale yellow; outer petals long, broad, tinted and horizontal.

Yonitza. Chinese incurved; flowers stand erect on stout stems; color white, delicate shade of green.

New Chrysanthemums of 1893.

The following list comprises all the novelties of last year, and contains many of the finest Chrysanthemums in cultivation at the present time. We bloomed them all here last Fall, and

can highly recommend them. These plants sold last Spring at \$1.00 and \$1.50 each, and we offer them here for the first time at a price that is within the reach of all.

Price 25 cents each, 3 for 50 cents, 7 for \$1.00, 16 for \$2.00. Our selection from this list, \$1.50 per dozen.

A. T. Ewing. Color creamy white, heavily banded and penciled in carmine pink; petals very thick, broad and flat, with nicely rounded tips; flat or slightly reflexed, central petals upright.

Amber Queen. Soft amber with deeper shadings; of exquisite form and very full; petals reflexing till the depth is wonderful, while the centre is still nicely rounded; of fine, free habit, and of easy cultivation.

Anna Woods. Bright rosy magenta, the finest specimen of this color that we have seen; petals broad and thick, outer rows quite horizontal, with incurving centre showing a silver lining; is perfectly double and of fine size.

Ada Strickland. A fine symmetrical formed Anemone; rich chestnut red with rich shadings; centre full and high; superior to any of this class.

A. A. Sturges. Magnificent broad flower of immense size, full and double to the centre; petals very long and broad; color the brightest golden yellow on both upper and lower surfaces, the entire bloom being a deep golden yellow without shadings.

American Flag. An immense double and solid Japanese variety of most novel and striking effect; color silverly rose, each petal regularly lined and striped with the darkest crimson.

Bryden, Jr. A grand Japanese incurved variety; clear soft yellow, shade of H. Cannell; extra large, petals twisting and incurving over the centre in same style, although not as compact; flowers of largest size, borne on strong stems.

C. Kruger. Flowers very large and of fine build; color a combination of salmon yellow and pink; early.

Emily Ladenburg. Deepest crimson, nearest approach to black; never burns as crimson does apt to do; strong, healthy bush.

Geo. R. Gause. The variety Walter Cobes has been greatly admired, both here and abroad, for its unique color, a bright bronze, or terra cotta; the present variety is almost identical in color, while the size is immense, and is nearly as great in depth as in diameter; shows no eye; petals straight or slightly incurving; a half globe in form.

Jennie Williams. Creamy white with yellow shadings; extremely double; petals upright and somewhat incurving, outer petals broader; massive, and grand in build; a splendid exhibition variety; good grower.

Joey Hill. Of the very grandest size; we know of nothing larger in the entire family; color a deep cardinal red of beautiful shade, faced with old gold; the outer petals are flat, showing the color to good advantage; the centre is an immense mass of closely packed petals.

Judge Hoitt. The greatest break in seedlings of recent years; an Alstroemeria fully eight inches across; color a pale pearl pink; the outer petals are broad and incurving, some three rows in depth; these form a saucer, enclosing a broad disc of central, flerets of wide open trumpet shape which rise and fill the flower into rounded form from side to side.

Mrs. J. W. Crouch. The nearest approach to self purple yet seen; of globular Japanese form, very large in size, and petals broad and of heavy texture; quite tall, though not perfectly double; never shows the centre, however.

Miss Lydia Hopkins. Flowers are extremely large, perfectly double; whorled and incurving in form, broad petals, gradually becoming erect; color white, irregularly suffused with a bright pink; no two flowers are marked just alike; very profuse in growth, perfecting its blooms readily; fine both for cut flowers and exhibition.

Mrs. Dudley C. Hall. Chaste and beautiful acquisition to the Chinese section; rich yellow sport from St. Patrick, large size, deep solid ball, perfect in habit and form; a fine exhibition variety.

Mrs. J. M. Schley. A magnificent extra large incurved Japanese variety; double and solid bloom; thick, broad, heavy petals, cupping and incurving around the centre.

Mabel Simpkins. An immense incurved Chinese bloom of purest snow white; a solid ball with high built centre; style of L. C. Maguire; grand for any purpose; the best white Chinese ever distributed.

Martha Duryea. A superb clear white; petals broad and thick, solid to centre; flowers of the largest size; robust habit; stems stiff; covered with luxuriant foliage; a grand white for market, exhibition, or bush specimens.

M. B. Spaulding. Enormous clear deep lemon color, immense in size; petals incurving and interlacing; centre full and high without an eye; one of the most double flowers in commerce; a grand show variety.

Maud Dean. An extra large flowered variety; petals broad and incurving, perfectly double and of great substance; color pink, almost a rose, a shade not found in any other variety.

President Wm. R. Smith. A pure soft pink; very heavy in substance, on stiff stems; very free in growth and also free in propagation; the form of the flower is very beautiful in all its stages; it opens with a centre incurving in a circle enclosed in broad outer petals; it gradually assumes the true Japanese form, rounded and deep, and this gradually changes to the informal reflexed.

Robert McInnes. Might be described as a perfectly double Mrs. Wheeler; the color is quite as bright, both the scarlet and the gold, while it is full to the last degree, a perfect globe in form; it is quite early, being in full perfection the last week in October, and can be had much earlier.

W. G. Newitt. Pure white with long drooping petals from the outer rows, the centre petals upright; very informal in arrangement, of large size; the foliage extends up the stem quite to the receptacle and acts as a support for the reflexed petals, bracteoles the flower very much in effect.

W. N. Rudd. Color a pale lavender pink of a pleasing shade; the petals are very long, the outer ones drooping, and all are of the curiously notched formation seen in Elkshorn; of more than medium size and of most exquisite finish; a good, free grower.

Walter Hunnewell. A magnmooth, strikingly handsome, bronze yellow, incurved Japanese bloom with broad solid flerets, and flowers of great depth, perfectly double, dwarf and stunted habit.

Wyndmoor. A full and extremely double Japanese variety of the largest size, without an eye, solid and well built; having been grown ten inches across; style and shape of Mrs. L. Clark, except in color, which is a rich chestnut red.

A Few Rare Varieties You Cannot Afford to Pass.

The following are of perfect habit, perfect flower, perfect color, and perfection in every respect.
We make a special offer of this set of twelve for \$2.00.

GOLDEN WEDDING.

Richest golden yellow, intense and dazzling in color; flowers ten to twelve inches in diameter, four to six in depth; petals broad and long, double to the centre without an eye; the grandest of yellows. 25 cents each.

NIVEUS.

A grand snow white variety; centre irregularly incurving, with outer petals reflexed nearly to the stem. Constitution robust; foliage large and abundant, while the keeping qualities of the flowers are unsurpassed. 25 cents each.

GETTYSBURGH.

A deep crimson variety; excels in color as Golden Wedding does in yellow. Outer petals broad and drooping. A Chrysanthemum of rare merit. 25 cents each.

GOOD GRACIOUS.

Delicate peach pink, solid round form, petals innerved, irregularly overlapping each other; it is most remarkable for its size, form and color. 25 cents each.

WM. FALCONER.

This grand variety is a sport from Louis Boehler, and it partakes of all the good qualities found in that excellent variety. The color is an exquisite shade of rose blush, changing to a delicate flesh pink as the flowers advance in age. The delicacy of tinting is without a parallel in any class of flowers within our knowledge. The soft, feathery growth peculiar to the Ostrich Plumine class is even more pronounced than in any of its predecessors, and in this variety it has an additional charm. 25 cents each.

ENFANT DES DEUX MONDES.

A magnificent white sport from Louis Boehler, partaking of all its good qualities; color purest snow white, borne on strong stems, and perfect in habit; the grandest white of the Hardy type. 25 cents each.

Novelties for 1894.

The following varieties are offered this Spring for the first time, and are without doubt unsurpassed in any particular by any other varieties in cultivation. They are the prize winning varieties of last Fall at the World's Fair Chrysanthemum Show, also at Boston, New York, Philadelphia and Indianapolis. They were awarded premiums for possessing points of merit over all other varieties of Chrysanthemums at the present time in existence, which fact should be a sufficient guarantee of their merit.

MRS. E. G. HILL.

Clear pearl pink, ready to cut by October 12th. Seven to eight inches in diameter, three to four inches deep. Full to the centre; a grand incurving sphere when fully developed. Very free in growth; luxuriant in foliage, which is carried quite close to the flower; stem very stiff. Its keeping qualities are quite wonderful; the blooms cut October 20th were certificated at Philadelphia and Indianapolis November 5th. Of the easiest possible culture, and quite as fine in every respect as the very best of the midseason varieties. It is the only variety receiving a Columbian medal previous to the great Chicago Chrysanthemum show. It is a seedling from Puritan and Mrs. Alpheus Hardy, and has the fine form of the latter variety, but the color is a beautiful nearly pink. Price 25 cents each.

MRS. CRAIGE LIPPINCOTT.

One of the finest varieties yet introduced. The color is bright yellow, and may be classed among the hairy varieties, as it has the hirsute appendage, though not as pronounced however as on some of the others of this class. 25 cents each.

GOLDEN BALL.

It is the very best variety of its color, deepest golden yellow, for decorative specimens. Self-supporting, never needing a stake, and growing about two feet in height. Compact, free flowering, full double, globular reflexed bloom; is remarkably healthy, carrying its dark green foliage to the ground. A grand yellow companion for Ivory. 25 cents each.

THE QUEEN.

A grand double white, of fine size and great substance. Very rounded in form, incurving and full. Attracted a great deal of attention at Madison Square, where it was awarded the first premium for best white. 25 cents each.

J. H. CLIFFE.

Magnificent rich pink, deepening to centre; the flowers solidly double; nine to ten inches in diameter; strong, stiff stems; habit perfect. 25 cents each.

PRINCESS OF CHRYSANTHEMUMS.

Entirely new and distinct variety. A magnificent flower of spherical shape; incurving, making a large ball; exquisite shade of light delicate shrimp pink. Awarded first prize at a famous Chrysanthemum show in Japan. 25 cents each.

WINNIE DAVIS.

It is a vigorous grower and free bloomer; has large spreading blossoms when disbudded. The petals are tubular in form, pure white at the base, and deepening to a rich lavender towards the ends. When fully matured the color of the bloom very nearly resembles the true Cenfederate grey. 25 cents each.

CHALLENGE.

This is a late variety, being at perfection about November 25th. The flower is a perfect globe of gold, which finally shows a pointed centre. The color is bright yellow, and in form quite as deep as wide; the stem very strong; foliage extra good, and a somewhat dwarf grower. Awarded medals at Indianapolis, Philadelphia and New York, and first premium at the World's Fair. It is the long looked for ideal yellow, both for commercial and exhibition purposes. Price \$1.00 each.

MAJOR BONNAFFON.

A very soft, clear yellow of the incurving type, full to the centre; flowers measure six to seven inches in diameter with nearly the same depth. Its perfect form and finish gives it the same

graceful appearance as Ivory has when at its best. The habit of the plant is rather dwarf and not much inclined to branching; the short jointed shoots growing up to a height of three feet and forming a large crown bud with a small number of much smaller laterals. The stem intervening between flower and leaves is short and strong, thus placing the flower in an erect position on the centre of the branch; clad in a rich, luxuriant foliage. Price \$1.00 each.

BEAU IDEAL.

According to our judgment this variety is as good as any of the foregoing, or we should not offer it here, as this year we had decided to list only those sorts that are away above high water mark. Beau Ideal is a bright rose pink, without touch of lavender shading. The form is a somewhat flat incurved, the outer petals horizontal, showing the bright pink, the incurving centre showing a lighter shade. The petals are broad and of good substance, flower of fine size, stem stiff, foliage first-rate. A good grower; everything that can be desired as a cut flower. It is in perfection about October 25th. We know of no variety that will compare with it in purity and brightness of tone, while in size and general make-up it is as good as the best. Price \$1.00 each.

INTER OCEAN.

Owing to somewhat limited quantity, this variety could only be staged at Chicago, where the vase of six blooms took first premium for best any color. This is a grand novelty of the general type of V. Morel, from which it is a seedling. The color is a delightful, glittering, pearly white, with light suffusion of pink. Petals of great substance, recurving, forming a flower one-third larger than the usual V. Morel. The stems are very stiff, the foliage extremely hand-

some, and is carried very close to the flower. Price \$1.00 each.

EUGENE DAILLEDOUZE.

There is nothing brighter or clearer among yellows; the centre is folded close, like Kyoto, the outer petals are broad and incurving, and of great substance. It is full to the last degree, of great depth, and perfect in form. The flowers are fine without exception, not a poor bloom among them, and the foliage is uniformly perfect from ground to flower, not coarse nor large, but plentiful. This variety requires far less dredging than any other of our acquaintance. Its keeping qualities: The Philadelphia correspondent of the American Florist says: "Eugene Dailedouze, a magnificent yellow, seemed as fresh the last day of the show as it did the first." Price \$1.00 each.

MRS. J. GEORGE ILS.

A magnificient white variety. It is an ivory-white, very massive in build, recurving, and petals interlacing. This variety was cut twelve days before the Chicago show, and reached there in fine condition, being awarded a special Columbian medal. This is a grand variety from California. Price \$1.00 each.

MARIE LOUISE.

A beautiful recurving white, with slender, interlacing petals, forming a plump globe. Received Columbian medal at the Chicago show. Price \$1.00 each.

MUTUAL FRIEND.

A new variety now in the front ranks. Was awarded first premium at the Boston show for the finest new white of the season. It will also be a prize winning variety in all the shows for 1894. It is a good grower, and a variety that will become very popular. Price \$1.00 each.

Our New Seedlings.

We take pleasure in offering three new Seedlings of our own production. These are the first Seedling Chrysanthemums ever raised and sent out by any Southern growers. We exhibited them at the World's Fair Chrysanthemum Show, where they obtained a Certificate of Merit. When more generally known they will come into the first ranks.

These varieties are worth more than double the price we ask for them, but in order to introduce them we make the price 25 cents each, the set of 3 for 25 cents.

DIXIE.

Rich deep golden yellow of large size; broad petals, incurved, and does not show a hollow centre. It is a vigorous grower with deep glossy green foliage, and is at perfection here about the first week in November.

SEWANEE.

A beautiful white variety of the same style as Nivens. A perfect ball of spiral-like petals with

a delicate shade of lemon at base of each petal. It is a good grower, free bloomer, and a general favorite with all who have seen it.

CREOLE.

Might be described as a perfectly double Mrs. Wheeler. Color as bright, both scarlet and gold; of great size and substance; a strong grower, with very handsome foliage, and stiff, stout stems.

The Grand New Early Bloomers.

MISS KATE BROWN.

Pure snow white, free flowering, broad petalled Japanese incurved bloom. Opening about the first of October. The best extra early white variety in commerce. Magnificent for commercial or private purposes. It will bloom to perfection in open ground in Tennessee before frost and is invaluable as an early bloomer, and should be planted extensively. Price 10 cents each, \$1.00 per dozen.

HOPE.

This is a new variety not generally known. We have grown it for a few years and consider it one of our best early bloomers. It is at perfection during the last two weeks of October. It is a dwarf grower. Stiff stems, with handsome leathery foliage does not need staking. The blooms are cream white, suffused and streaked with pink, and of large size. As an outdoor variety it has great merit, as it will be at perfection before frost comes. Price 10 cents each, \$1.00 per dozen.

Ostrich Plume or Hairy Chrysanthemums.

PATRICK BARRY.
WM. FALCONER.

ZAMBESI.
LOUIS BOEHMER.

W. A. MANDA.
MISS ANNIE MANDA.

These are a good representative set of the Ostrich Plume varieties, and comprise all the color in this class. We make a special offer of these six varieties for 50 cents.

September Flowering Chrysanthemums.

Hitherto the great objection to Chrysanthemum culture in several of the Southern States not sufficiently South to miss the first Fall frosts of October was that the frost destroyed most of the flowers before coming to maturity, but now this difficulty is overcome and an advance made in the culture of the Chrysanthemum in localities where this objection has previously existed. These varieties will flower through September and October and will come to maturity in Tennessee before frost.

Price 15 cents each, the Set of Twelve for \$1.00.

Albert Thunsson. Golden yellow, blazed and lined with deep crimson.

Baron Veillard. Brilliant yellow, each petal outlined in rosy crimson.

Charles Joly. Beautiful violet rose, the centre gold.

M. Maxime de la Rocheterie. Flowers very large, disheveled and curled; brilliant orange with yellow centre, shaded rosy crimson.

Mme. Louis Lioumet. A beautiful shade of peach pink with silvery white centre, long drooping petals, full double flower.

Mme. Castellier. Pure white, a large fluffy flower, double to the centre; one of the earliest to bloom.

Mme. Louis Lioumet. Silvery white, richly tinged with rose; centre old gold.

M. Lemaitre. Color dregs of wine, centre golden chamois; a new color.

Mme. Leon Itasse. Brilliant yellow, blazed with brick red and light flame; reverse gold.

M'de Germaine Cassagneau. A lilac rose, shaded with white; centre gold color.

Mme. P. Jung. Canary yellow, irregularly blazed and lined with red; each petal outlined with carmine.

Vice-President Hardy. Flower exceptionally large, brilliant yellowish gold, bordered with rosy crimson violet.

NEW FRENCH CANNAS.

There has been nothing offered in recent years that possesses such real and intrinsic value and merit, and that appeals to so many buyers, as the new Cannas which we have the pleasure of offering to our customers this season. When the large size of the flowers and the large heads of blooms are taken in connection with the freedom with which it blooms, it makes one of the most attractive plants for bedding that it can be possible to conceive of. The other new varieties here offered are all equally desirable, and in presenting to our customers these varieties we are offering something which, while comparatively expensive, are well worth the cost, and we know no one will regret purchasing.

Childsii. Height four feet; the foliage rank, and of a light green shade; the flowers large, clear yellow, brilliantly spotted with crimson, 25 cents each.

François Crozy. This variety is identical with Mad. Crozy in habit and general style of growth, but the flowers are bright orange, bordered with a narrow edge of gold, one of the most desirable shades that could be seened, 25 cents each.

Gustave Senouholz. Green foliage; flowers salmon orange; large, 20 cents each.

Goedrey St. Hillaire. By far the best dark leaved Canna; but when the large size of the flowers is taken into consideration, coupled with the richness of dark maroon colored leaves with a dark metallic or bronze lustre, it will be appreciated; the flower is a light salmon scarlet, 30 cents each.

Henri L. de Vilimoria. An entirely distinct variety and of a most pleasing color; the centre of the flower is of a brownish red, shading off at the outer edge of the flower to a bright yellow, the two colors contrasting most beautifully; foliage pea green; height four feet, 25 cents each.

J. Thomayer. Flowers of very large size, produced in large spikes of a most intensely rich orange scarlet; foliage of a rich bronzy purple; it grows about four feet high, 25 cents each.

Louis de Merode. Leaves green, shaded with purple; large round flowers of an amaranth crimson, 25 cents each.

Mad. Crozy. The flowers are a flaming scarlet, bordered with gold, a marvelous combination of colors, having all the delicacy and beautyfulness of the rarest orchid, 35 cents each.

Maurice Rivière. Rich bronze foliage, with large carmine flowers; it grows about four feet high, 25 cents each.

M. D'Interrail. Grows about two and a half feet high; compact deep green foliage; very vigorous grower; flowers large, of good form, deep saffron with a light margin, 25 cents each.

M. Lefebvre. Flowers of large size, of rich carmine; foliage rich bronzy purple; height four and a half feet, 25 cents each.

M. He de Crillon. Green lanceolate leaves; large pale yellow flowers, spotted and shaded, red at centre, 25 cents each.

President Carnot. Deep purple foliage, with large carmine flowers; grows about four feet high, 25 cents each.

Professeur Charguerard. Lanceolate green leaves; flowers large, of a vivid crimson; three feet in height, 25 cents each.

President Cleveland. Height two and a half feet; green foliage; very largest salmon red flowers; an elegant sort, 25 cents each.

Perfection. Green foliage; the flowers large, golden yellow, minutely spotted red, 25 cents each.

Star of 1891. This variety was sent out last season for the first time, and was described in such a way as to seem identical with Mad. Crozy; it is more dwarf than Mad. Crozy; it is nearly covered with a mass of scarlet, and as it is nothing like as tall a grower, when planted together will produce fine effects; it is an elegant pot plant and will bloom in the house in Winter splendidly, for which purpose it is admirably suited, 30 cents each.

Senator Millard. Fine purple foliage; a most ornamental variety, and a free bloomer, 25 cents each.

SPECIAL OFFER.—For \$1.00 we will send six Cannas, our selection, including a Mad. Crozy.

COLUMBIAN CANNA COLLECTION.

All who visited the World's Fair cannot but have noticed the beauty of the following varieties that were planted extensively through the grounds.

FLORENCE VAUGHAN.

This is undoubtedly one of Mr. Crozy's most beautiful and distinct introductions. The flowers of this splendid sort are of the most perfect form; the petals are even broader than those of Mad. Crozy and more rounded at the ends, which latter characteristic represents the best type sought for in the latest hybridizations, are well opened and of the most brilliant golden yellow, dotted with brightest scarlet, and are the largest of all Cannas, and produced in constant succession, \$1.50 each.

ALPHONSE BOUVIER.

Height three and one-half feet; leaves green; very strong; tall spikes; rich scarlet vermillion flowers; one of the very best, 75 cents each.

EXPLORATEUR CAMPBELL.

Height four feet; very strong; foliage medium green in color; flower is as large as Bonvier; clear vermilion scarlet, tinted with minute blood crimson spots distributed evenly over the petals; flower spikes large, 75 cents each.

GEORGE W. CHILDS.

Height three and one-half feet; florets are nearest like those of Mad. Crozy, but with more yellow at the throat and at back of flower, but only about two-thirds the size of the latter; the flower spikes are five inches in diameter, symmetrical and longer than any variety we have had and very striking in appearance; the spikes stand well above the foliage of the plants, 60 cents each.

We make a special offer of these four grand varieties for \$3.00.

GERANIUMS, FUCHSIAS, ETC.

CLEMATIS.

Of all the hardy running vines in cultivation, none is more beautiful than the Clematis, being entirely hardy and growing as they do more beautiful each year after being planted. They should be grown extensively. Purple, White,

Red, Mauve or Streaked. Large, strong plants of either color, 50 cents each.

CAMELLIA JAPONICA.

The rich and pleasing contrast afforded by their dark green leaves and their superb flowers of exquisite beauty and waxy texture, together with their almost endless variegations of color, combine to make them one of the most desirable of Winter flowering plants. Price \$1.00 each, nice bushy plants about sixteen inches high. Can send any color desired.

AZALEAS.

Azaleas are a class of plants highly ornamental for Winter and early Spring flowering. They are of easy culture and can be had in bloom from Christmas to May if a fair selection of varieties is kept up. Nice shaped plants, 50 cents each; large plants, \$1.00 each.

- Lily of the Valley.** Strong clumps, 25 cents each.

CALLA LILY.

Strong plants, 25 to 50 cents each.

SPOTTED LEAF CALLA.

This Calla resembles the White Calla, but is of a somewhat smaller habit; the leaves are of a glossy deep green, with numerous white spots, making it very ornamental at all times, even when not in bloom. 25 cents each.

DWARF EVERBLOOMING CALLA.

It is our good fortune to have come into possession of this most valuable of all Callas. The following facts will convince anyone of its great superiority over the old sort. It is of a dwarf habit and does not grow tall and scrappy like the old variety, but is strong and compact, with a great abundance of lustrous dark green foliage. It is a true everbloomer, its flowers appearing in great abundance both Summer and Winter when grown in pots, or it will bloom profusely all Summer long in the open ground, and being potted in September will continue blooming without intermission all Winter. The same

plant will grow and bloom for years without once ceasing, and the quantity of bloom which a good plant will produce is astonishing. It is estimated that six plants of the old sort will not produce as many flowers in the course of a year as will one plant of this new dwarf variety. A large plant is hardly ever without one or more flowers, and its dwarf, compact habit makes it a much more desirable pot plant than the old variety. Its flowers are of large size and snowy white in color. All in all it is one of the most desirable plants we ever offered. 75 cents each; extra large plants, \$1.00.

HELIOTROPES.

We offer this season the finest assortment of Heliotropes to be found in the country. Many of them were novelties of last year that proved to be of great merit. This is undoubtedly the best list of varietics to be found anywhere. We have propagated them extensively and are able to offer them at a very low price. Nobody should be without a few of these handsome new varieties.

Price 10 cents each, fifteen for \$1.00.

Albert Delaux. Bright golden yellow foliage marked with delicate green, and lavender flowers.

Comtesse de Mortemarte. Very free flowering and exceedingly sweet; dark velvety blue, with white eye.

Chieftain. A rich shade of violet; best Winter bloomer.

Jersey Beauty. Finest blue variety; best for pot culture; dwarf.

Le Géant. Both the floret and truss are immense; it is of a lovely rosy violet shade of great beauty.

Souvenir. Half dwarfin habit, with panicles of immense size; florets large, centre a good white edged with bright blue.

Mme. Ad. Dubouche. Foliage a very dark green; habit compact and shrubby; trusses enormous, soft and mossy looking; color velvety violet.

Mirielle. Panicles of the most extraordinary size and a very free grower; the floret is immense and quite flat, of a delicate pearl shade edged with Heliotrope.

Mrs. David Wood. Flowers are semi-double, in large heads, fragrant, early, light blue, constant bloomer.

President Garfield. A gem of the very first water; is a fine deep blue, and very floriferous.

White Lady. Strong growing and free branching, and is very profuse in bloom; large and of the purest white.

and graceful flowers make them useful plants for greenhouse or window decoration.

Alba Pieta. A perfectly distinct variety; the leaves glossy green, thickly spotted with silvery white. 15 cents each.

Ctsse. Louise Ercoldy. Rex variety; consists in the two lobes not growing side by side, but one winds itself in a spiral way completely over itself. 25 cents each.

Dreggi. This variety is always in flower, Winter and Summer; it is one of the most useful plants that we have; flowers white. 15 cents each.

Fuchsiodies Rubra. Red flowers; very fine; a constant bloomer. 10 cents each.

Fuchsiodies Alba. Fuchsia like, pure white flowers. 10 cents each.

Hybrida Multiflora. Flowers rose; it is in bloom almost constantly. 10 cents each.

Ingramii. One of the best Winter flowering varieties; flowers a reddish carmine, the leaves edged with bronze. 10 cents each.

Incarinata Metallica. Very dark green leaves, with silver dots and a metallic shade; fine pink flower clusters. 10 cents each.

Le Comte. Rex variety. The leaf is of medium size, of pointed Rex form; the color is very dark velvety green, just edged in very bright silver in the young leaves. 25 cents each.

Louise Closson. The brightest of all the new rosy leaved Rex; the texture is very fine and crape like, while the zone is a bright rosy purple with a high metallic lustre. 25 cents each.

Metallica. A shrubby variety; a good grower and tree bloomer; leaves triangular, longer than they are wide; the under side of the leaves and stems are hairy, the surface of a lustrous metallic or bronze color. 15 cents each.

Nitida Alba. A strong grower and a profuse blooming variety, producing immense panicles of pure white flowers; fragrant. 10 cents each.

Rubra. One of the finest Begonias in cultivation; its dark and glossy green leaves, combined with its free flowering habit, makes it one of the very best plants for house or conservatory decoration. 15 cents each.

Parvifolia. A dwarf, bushy growing variety, with pure white flowers, being in bloom the whole year. 10 cents each.

Perle Humfeld. Shows from six to eight deep points, arranged in very elegant form; the color is velvety green of various shades, and broadly zoned with silvery spots. 25 cents each.

Ricinifolia. Has large palmated leaves, supported on stems from three to four feet long. 10 cents each.

Sutton's White Perfection. Beautiful dwarf, free flowering plant, that is always in bloom, and attracts attention wherever seen. 25 cents each.

Semperflorens Gigantea Rosea. Superb variety, of very strong, upright growth, fine large flowers of a clear cardinal red, the bud only exceeded in beauty by the open flower, which is borne on a strong, thick stem. 25 cents each.

Sandersonii. Flowers a scarlet shade of crimson, borne in profusion during the entire Winter months. 10 cents each.

Sterling. A nice upright grower with smooth stems; the entire leaf is of a pale silvery green, of frosted lustre, broken only by pink ribs narrowly banded in green and narrowly edged red. 25 cents each.

Weltoniensis. A handsome Winter flowering variety; lovely pink flowers, of easy cultivation. 10 cents each.

BEGONIAS.

This class of plants is each year becoming more deservedly popular. The beauty of their foliage

Zebrina. Erect, of beautiful variegated foliage; leaves shaped like those of Rubra, and bearing white flowers. 10 cents each.

For \$1.00 we will send one dozen handsome Begonias, all different, our selection, to include some of the higher priced sorts.

WATER LILIES AND AQUATIC PLANTS.

Nymphaea Rubra. Flowers brilliant rosy red, stamens scarlet; measures from six to eight inches; the leaves are of a rich brown, and when they fade turn to a gold and crimson color. \$1.50 each.

Nymphaea Alba Candidissima. When naturalized in still water, with a very rich soil, it produces leaves thirteen inches wide and flowers six inches in diameter, with very broad petals of a pure white color. 75 cents each.

Pontederia Crassipes. The Water Hyacinth. A very showy aquatic, bearing very freely flowers of a delicate blue rose in trusses like a Hyacinth. The individual blooms are two inches in diameter; it should be grown in about three inches of water, so that the ends of the roots can enter the soil. 25 cents each.

Nymphaea Zanzibarensis Aurea. Was raised from seed of the true Zanzibarensis, which they are like except that the color of the flowers is a shade lighter, being of the richest deep azure blue; they are of the largest size and freely produced the entire year. \$1.50 each.

Nymphaea Tuberosa Superba. This is a decided improvement on the old Tuberosa; the flowers are larger, more fragrant, and more abundantly produced; broad petals of a pure white color; it blooms until frost, and lasts longer as a cut flower than any other Water lily. 10 cents each.

Cyperus Alternifolius. Another well known greenhouse plant, which is really an aquatic or bog grass; planted out near the margin of the tank, or in pots submerged in the tank, it makes large growth, and is very ornamental and useful for cutting. 25 cents each.

Nymphaea Zanzibarica. It is of a shade of blue so deep that it is not unreasonably called purple; it has the same fragrance as Cornuta, and even when grown in small tubs or pans, produces larger flowers than that variety. \$2.50 each.

Pontederia Crassipes Major. The Orchid Pond Lily. The leaves have curious swolten stems, forming tubs at the base, which are filled with air cells; the flowers are produced on very long spikes, like a Hyacinth, but are much larger; each flower is two inches across, and very large and delicate, color of a soft rosy blue; often mistaken for an Orchid. 25 cents each.

Nymphaea Coriacea. This species is a native of Egypt; it has bright green leaves and lavender blue flowers, about four inches in diameter; they are very fragrant, the perfume being entirely distinct from Odorata; it is easily cultivated in a tub or tank. \$1.50 each.

Nymphaea Devonensis. This is the choicest Water Lily in cultivation; if confined in tanks, tubs, or boxes, the flowers are smaller, but otherwise just as fine; the color is a brilliant red, glowing by lamplight with indescribable brightness. \$1.50 each.

Nelumbium Luteum. The American Lotus; though a native of this country it is not common; there is scarcely any difference between this and Speciosum except in the color of the flowers, which are of a rich sulphur yellow; they are as large as a quart bowl, and have a strong fragrance, entirely unlike that of a Nymphaea. Strong tubers, \$1.00 each.

Nymphaea Odorata Rosea. This is the famous Water Lily of Cape Cod; it possesses all the desirable qualities of Odorata; the flowers are of large size, cup-shaped; a lovely deep pink in color; of delicious fragrance and a very free bloomer; a most desirable variety. Strong flowering roots, \$1.00 each.

Nymphaea Odorata. Our native Water Lily; flowers pure white and very fragrant; when grown in rich mud it will produce flowers six inches and leaves thirteen inches across. 30 cents each.

Nelumbium Speciosum. This is the true Lotus of Egypt, and is one of the loveliest of the Water Lilies; the flowers when just expanding are of a beautiful rosy pink color; when open they are of a creamy white and pink, and are very fragrant. Strong tubers, \$1.00 each.

SPECIAL LOW PRICED COLLECTION OF AQUATICS.

The varieties named below are a selection of the most popular and easily grown sorts, which we grow in large quantities. We will supply the collection of six varieties, one plant of each, for \$3.25, amounting at our regular price to \$4.40.

Nelumbium Speciosum.

Nymphaea Tuligera Superba.

Pontederia Crassipes Major.

Nymphaea Odorata Rosea.

Nymphaea Cornuta.

Cyperus Alternifolius.

COLEUS.

Coleus can be used in numberless ways. Their foliage is superbly colored with bronze, crimson, maroon and gold, sometimes uniform, as in Verschaffeltii and Golden Bedder, but usually marked and variegated in the most brilliant manner. Beautiful at all seasons of the year, carrying rich and velvety foliage, and growing rapidly. It will be noticed that we offer these popular bedding plants cheaper than any other firm in the country.

Price 5 cents each; 50 cents per dozen; \$3.50 per hundred.

Crimson Bedder. Rich dark crimson, deeper shades.

Corsair. Rich velvety crimson, bordered with deep maroon.

Firebrand. Bright glowing crimson.

Garland. Very large finely serrated foliage of bright green, purple and crimson.

Golden Bedder. Clear golden yellow; the best yellow bedder; a shy grower.

Hawatha. Fine orange yellow and crimson-flamed margin; this is one of the best and most distinct.

John Goode. Light green, on a yellow ground; a splendid bedder; vigorous grower.

Kentish Fire. Centre clear vermillion, outside green and bronze.

Retinospora Plumosa. Exceedingly handsome Japanese Evergreen, with feathery, light green foliage, 50 cents each.

Retinospora Plumosa Aurea. Like the preceding, a plant of great beauty, soft, plume like foliage, 50 cents each.

having a rich velvet-like appearance, 15 to 30 cents each.

Hoya Carnosa. Wax Plant. Has thick, fleshy leaves, growing moderately fast and bearing numbers of beautiful flesh-colored flowers and from which are exuded large drops of honey-like liquid; one of the best plants for house culture, as it stands the extremes of heat and cold better than most plants, and is not easily injured by neglect, 25 cents each.

Ipomoea Paniculata. The Mexican Morning Glory. One of the most attractive climbers; flowers as large and plentiful as those of the Moonflower; plant a rapid, vigorous grower, tuberous rooted; can be lifted in the Fall and stored like a Dahlia; color a beautiful shade of rosy lilac; planted with the Moonflower, they unite to make a grand display; the pure white flowers of the one appearing in the evening, and those of both remaining fully expanded for several hours in the morning. Strong roots, 25 cents each.

Ipomoea Noctiflora. The Evening Glory, or Moonflower. There are few plants we have seen sent out that have been so satisfactory as this; one lady says that it was trained on strings to a balcony twenty-five feet high and forty feet wide, and that from August to November it was covered nightly with its white moon-like flowers from five to six inches in diameter; it has also a rich Jessamine-like odor at night, 25 cents each.

Spanettia Vitae. A charming and profuse flowering climber, producing tubular flowers from one to two inches in length, the plant being literally covered with them the entire season; the coloring of the flowers is gorgeous in the extreme, being a flame color tipped with a bright yellow; the contrast with the vivid green, glossy foliage is startling, making the plant an object of rare beauty, 10 cents each.

Passiflora Quadrangularis. A magnificent variety; the flowers are very large and sweet scented; purple inside of petals, light green on the outside; the centre of the flower is of many colors, 25 cents each.

Schubertia Grandiflora. A new plant of great merit, destined to take a prominent position as one of the best novelties introduced for many years. It flowers profusely in clusters, shape of the Alhambra, pure white, deliciously scented, and lasting a long time in water; flowers large and of good substance, for cut blooms and decorative purposes it is unique; culture most simple; hardy south of Tennessee, 50 cents each.

Wisteria Sinensis. One of the most hardy climbing plants, and when once established, of very rapid growth, covering the entire side of the house in a few years, presenting a magnificent appearance when in full bloom, 50 cents each.

OUR SURPRISE COLLECTION.

To meet the demand of our large trade we grow a very large stock of plants, in most cases more than needed, to make sure of having enough. After business is about over, in May, we make this surplus up into "Surprise" Collections, and offer them to our customers, giving them three or four times the value of their money. The "Surprise" comes in the great amount of fine plants you get for the money paid. These collections cannot be sent out until about May 10th, and will be entirely our own selection from kinds of which we have a surplus. The purchaser can state the purpose for which they are wanted, and we will select ac-

ORNAMENTAL CLIMBERS.

Apios Tuberosa. The Tuberous Rooted Wistaria. A valuable, hardy, tuberous rooted climber, closely resembling the common Wistaria in vine and foliage, and having clusters of rich, deep purple flowers, which have a strong, delicious Violet fragrance, 15 cents each.

Allamandas. The Allamandas are beautiful evergreen climbers, with rich, glossy foliage, and deep yellow flowers, which are very large, large and showy; it would be difficult to exaggerate the beauty of the Allamanda or its red and permanent value, 25 to 50 cents each.

Akebia Quintata. A climbing plant from Japan, with a beautiful ent foliage, having large clusters of chocolate colored flowers, which are very fragrant; attains the height of 20 feet, 25 cents each.

Ampelopsis Quinquefolia. Rapid grower, attaching itself to brick, stone walls or trees; it has beautiful green foliage in Summer, turning to a rich crimson in the Autumn, 25 cents each.

Ampelopsis Veitchii. Miniature variety of Virginia creeper, which clings to any building and produces dense foliage of a glossy pale green, shaded with purple, and which turns a brilliant red in the Autumn, 25 cents each.

Aristolochia Siphon. Dutchman's Pipe. Very large leaves and brownish flowers of a singular shape, resembling a pipe; it is a vigorous and rapid growing climber, attaining a height of 20 feet, 50 cents each.

Clerodendron Balfouri. A very handsome greenhouse climber, with large clusters of crimson scarlet flowers, each flower encased in a bag-like calyx of pure white, 25 cents each.

Correa Seandens. Magnificent climber, with large, bell-shaped flowers and elegant leaves and tendrils; it is of very rapid growth, and consequently eminently adapted during Summer for warm situations, 20 cents each.

Cissus Discolor. A well known climber, with the leaves beautifully shaded dark green, purple and white, the upper surface of the leaf

cordingly. No collection will be made up for less than ONE DOLLAR, and from that up to any amount the purchaser may desire. In all cases one will be surprised at the amount of fine plants he gets for the money. All "Surprise" Collections ordered previous to May 10th will be booked and shipped then, but we can continue sending them through May and June. Our "Surprise" Collections will give unbounded satisfaction. They are indeed a surprise. Sent only by express.

HARDY HERBACEOUS PLANTS AND SHRUBS.

Altheas. Rose of Sharon. Are fine and free growing flowering shrubs of the easiest cultivation; very desirable on account of blooming in August and September, when but very few trees or shrubs are in bloom, 25 cents each.

Allanthus. Tree of Heaven. A very handsome ornamental tree, having been introduced into this country from China many years ago, yet it is unknown in many parts. It is a very rapid grower, perfectly hardy in all parts, succeeding in all soils, and growing six to ten feet high with very stout stems the first Summer, with magnificent leaves five to six feet long, giving it a tropical appearance; in China it is known as the Tree of Heaven, a name suggested by its majestic form and great beauty; the trees grow to a good height and bear in the greatest profusion very large panicles of bloom, 50 cents each; extra large, \$1.00 each.

Achillea, The Pearl. Grand improvement on the old Achillea; the flowers, which are borne in the greatest profusion the entire Summer on strong, erect stems, are of the purest white, somewhat resembling a Pompon Chrysanthemum; as a Summer cut bloom it is a great acquisition, 25 cents each.

Azalea Americana. Hardy Azalea; deciduous, flowering in May; light straw colored blossoms; very beautiful, 50 cents each.

Astibile Japonica. Incomparably the most beautiful of all hardy herbaceous plants, growing about two feet high, in compact shape, with handsome foliage, from above which rise its umbels of small and feathery white blossoms, 25 cents each.

Bridal Rose. Rubus Grandiflora. A large, double white flower of the Blackberry tribe; free growing, may be set out in Spring and potted off like Roses in the Fall; a good Winter bloomer, 50 cents each.

Crape Myrtle. Pink, fringed pink blossoms; crimson, deep crimson, 40 cents each.

Calycanthus Floridus. Strawberry shrub; hardy, growing five to six feet high; dark brown flowers with a delicious odor, 25 to 50 cents each.

Citrus Trifoliata. Hardy Orange. Has proved perfectly hardy as far North as New York; it differs from other Oranges in having trifoliate or clover-shaped leaves, larger and finer blooms than any other sort, and produced over a much longer season; the fruit is orange red, about the size of a pigeon's egg, and of fine flavor; it makes a beautiful shrub about four feet high, completely covered with its sweet-scented blossoms and brilliant fruit. Fine thriate plants, 50 cents each.

Dewwood, Cornus. The "Queen of Ornamental Trees" indeed. No other possesses so many virtues or is so near faultless; three blessed is the Flowering Cornel, even of perpetual

though changing beauty) for in early Spring its galaxy of blossoms equals the finest Magnolia; in Autumn its foliage, almost dazzling in its brilliancy, surpasses the Scarlet Oak or Maple, while in Winter its clusters of bright vermilion berries add to its charms. Red or white, strong and healthy plants, 75 cents each.

Deutzia Crenata. Height two to three feet, regular and compact form; bushy; flowers pure white; blooms profusely, 25 cents each.

Deutzia Gracilis. Very graceful white blooms, produced all the Spring in large quantities; dwarf and bushy, 25 cents each.

Dielytra Spectabilis. A hardy ornamental flowering plant; known also as the Bleeding Heart; a valuable garden plant, 20 cents each.

Erianthus Ravenne. Perfectly hardy; the foliage forms graceful clumps three to four feet high, above which arise its numerous spikes five to six feet, bearing plump flowers, 50 cents each.

Exochorda Grandiflora. This magnificent hardy shrub from North China, with its great racemes of snow white flowers, like single Roses, and its rich and long, persistent foliage and elegant habit of growth, ought to be in every garden. It blooms in May, and is one of the finest hardy shrubs of the present time, 50 cents each.

Ethengia Longipes. A valuable new fruit, as well as a magnificent ornamental shrub, from Japan, in bloom by May, after which, until late in Fall, it is clothed in luxuriant green foliage, silvery underside and producing in profusion, handsome bright berries, which make delicious sauce, 25 cents each; extra large, 50 cents each.

Eulalia Japonica Zebra. Unlike all other variegated plants, this has its striping or marking across the plant instead of longitudinally; the extended flower spike resembles the ostrich plume, and will last for years, 25 cents each.

Forsythia. (Golden Bell.) One of the best early flowering shrubs; bloom is drooping, yellow, and appear very early in Spring before the leaves, 25 cents each.

Heuchera Mutiliflora. The Double Hardy Sunflower. An extremely useful hardy plant; it bears profusely large double flowers of a bright yellow, 15 cents each.

Hydrangea Paniculata Grandiflora. One of the finest hardy shrubs in cultivation; flowers formed in large white panicles of sprays, nine inches to one foot in length, 25 to 50 cents each.

Hollyhock. Superb double kinds; the Hollyhock is becoming a very popular Summer flowering plant, and when planted in rich soil and in a sunny position is a very impressive and stately plant. We offer strong, one year old plants, at \$1.00 per dozen; nice young plants that will bloom this year, 50 cents per dozen.

Iris. French-Lis. The Iris is a very extensive and beautiful family, commonly known as the Flowering Flag. A beautiful assortment of color from pure white to richest purple, 25 cents each.

Lilac. Well known and popular hardy flowering shrubs. Large strong plants, 25 cents each.

Mahonia. An evergreen shrub of medium size, with purplish shining, prickly leaves and showy, bright yellow flowers in May, succeeded by bluish berries; its handsome, deep green, glossy foliage and neat habit render it very attractive in Winter, 25 cents each.

PBox. Our collection embraces the best of the old varieties and the new French ones of recent introduction, which are very fine, distinct and pure colors, many of them finely shaded and marked with distinct clear, light eyes, 15 cents each, \$1.50 per dozen.

Powtonia Imperialis. A magnificent tropical looking tree from Japan; of extremely rapid growth, and surpassing all others in the size of its leaves, which are 12 to 14 inches in diameter; blossoms trumpet shaped, formed in large upright panicles, and appear in May, producing a beautiful effect. We have a few trees on our place planted out three years ago that are now 20 feet high and branched in proportion. The most rapid grower of all trees, 50 cents each; extra large, \$1.00 each.

Paeonia. Peonies, like all other merititious plants, always have admirers, 30 cents each.

Philadelphus Coronarius. The Mock Orange. A medium sized shrub, bearing an abundance of white and sweet scented flowers; last of May, 25 cents each.

Spiraea Reevesii Flora Plena. A charming shrub with narrow, pointed leaves; blooms in May, 25 cents each.

Spiraea Van Houttei. An upright growing growing shrub with graceful, slender branches and bright green foliage; flowers pure white, in great clusters, and form cylindrical plumes nearly two feet long; one of the hardiest and most desirable, 25 cents each.

Sophora Japonica. This tree has compound leaves of richest glossy green, and are as beautiful as anything in the whole range of foliage trees; the most unique characteristic of this little tree, however, is the coloring and smoothness of its twigs and branches, which remain for years a deep, shining green, and make the tree attractive even in Winter; its blossoms are borne in long clusters of a rich, creamy color; for the lawn this is really a perfect tree, 50 cents each.

Tritoma Grandiflora. Few flowers produce such a striking effect and are so attractive as this grand herbaceous plant, which throws up stalks three to five feet high, bearing large and solid spikes of rose colored flowers of great size and brilliancy; grown singly or in masses, it has a grand effect, blooming until snow comes, regardless of fall frosts, 25 cents each.

Tamarix Gallica. The pink flowers of the Tamarix, borne all along its slender branches, and its delicate feathered foliage, give it a character no other shrub possesses, 50 cents each.

Viburnum Plicatum. The Japanese Snow ball. A beautiful shrub of moderate upright growth, with wrinkled or plicated rich green leaves; the flowers are white, and larger and more solid than those of the common Snow ball, 25 and 50 cents each.

Wiegelia. Beautiful shrubs that come in flower in June and July; the flowers are produced in so great profusion as to almost entirely hide the foliage; they are very desirable for the border or for grouping, and also as specimen plants for the lawn; the flowers are rose and white, and of very pretty form, 25 cents each.

better than the individually selected plants at more than double the price.

ONE DOLLAR COLLECTIONS.

ONE DOLLAR MAIL COLLECTIONS.

Look carefully at this offer for one dollar. There are many bright and happy homes in the South where intelligence is supreme, and consequently good flowers appreciated, that are not fortunate enough to have an express office convenient to them. To place our flowers within the reach of such people, we have prepared the following collections that we will send free, postpaid, through the mail, for one dollar, packed carefully in a nice wooden box. Any one of these collections will make a handsome bed, and nothing helps to make a home more

CHEAP LIST.

The following collections, to be sent by express only, are very desirable to those who want a nice flower bed and care nothing about having the names put on each plant, the doing of which during the busy season consumes valuable time. We desire it distinctly understood that the plants in these collections are just as good and desirable in every way, and probably would be

cheerful than a neat flower garden, however small. If preferred, parties may select four plants from any five collections, and make up their twenty plants in that way. Any three collections for \$2.50, or six for \$5.00:

20 Geraniums.	20 Asters,
20 Chrysanthemums.	20 Fuchsias,
20 Carnations.	20 Salvias,
20 Tuberoses.	20 Heliotropes,
20 Pansies.	20 Coleus,

There is not a home in the South or a person that receives this Catalogue, but what can use at least one of these collections to advantage. If you are boarding at a hotel and have no place to put them out, they will make a nice present for a friend not so situated, and will afford pleasure and remembrance all the Summer long. We ask therefore as an acknowledgment that this Catalogue is appreciated, an order for at least one dollar's worth of flowers, so that your name may go permanently on our books as customers, and continue to receive our catalogue.

Inducements to Clubs.

Although prices are low in this Catalogue for all classes of plants, most liberal terms are offered to friends who are inclined to obtain orders from others, and to secure thereby some fine specimens free of cost for themselves. In making up a club order it is important to state the sum sent by each member and the plants wanted, that they may be separately packed and confusion avoided when the plants are distributed; the full address of each is always required. The following are the rates from \$25.00 to \$3.00; larger sums in proportion:

- For a \$3.00 club order the originator may select in plants 50 cents.
- For a 4.00 club order the originator may select in plants 55 cents.
- For a 5.00 club order the originator may select in plants \$1.00.
- For a 6.00 club order the originator may select in plants \$1.10.
- For a 7.00 club order the originator may select in plants \$1.25.
- For a 8.00 club order the originator may select in plants \$1.50.
- For a 9.00 club order the originator may select in plants \$1.75.
- For a 10.00 club order the originator may select in plants \$2.00.
- For a 15.00 club order the originator may select in plants \$3.00.

For a 20.00 club order the originator may select in plants \$4.00.
For a 25.00 club order the originator may select in plants \$5.00.

VEGETABLE PLANTS.

ASPARAGUS.

Conover's Colossal. A mammoth variety of vigorous growth, sending up from fifteen to twenty sprouts each year from one to two inches in diameter; color deep green, crown very close. Two year old roots, \$1.00 per 100.
Palmetto. Of Southern origin; has now been planted in all parts of the country, and reports indicate that it is equally as well adapted for all sections; it is earlier, a better yielder, more even and regular in its growth, and in quality equal to that old favorite, Conover's Colossal. Two year old roots, \$1.00 per 100.

SWEET POTATO PLANTS.

Thirty cents per 100; \$2.50 per 1,000.

RHUBARB, OR PIE PLANT.

\$1.50 per dozen.

CELERY PLANTS.

Ready in June. 50 cents per 100.

EGG PLANTS.

Twenty-five cents per dozen.

PEPPER PLANTS.

Ten cents per dozen.

CABBAGE PLANTS.

These we grow in large quantities in all the leading varieties. During February we can supply large strong plants raised in cold frames at 50 cents per 100. After March 15th we can furnish nice young plants of this season's growth at 25 cents per 100, \$2.50 per 1,000; larger quantities at lower prices on application.

TOMATO PLANTS.

These we grow in quantities in pots, and can be shipped any distance without breaking the ball or injury to the plant. Pot grown Tomato plants are from two to three weeks earlier than tender plants from frames and hotbeds, that have to be dug up without a ball of dirt at the roots, and consequently wilt and suffer for several days after planting before they take a fresh root. On the other hand the pot grown plants never receive a check or set back in any way, but keep right along growing and fruit two weeks in advance of hotbed and frame grown plants. Those that have once tried Pot Grown Tomato Plants would never use any other. Try 5 dozen and be convinced. Ready February 1st. We grow all the leading varieties. By express, 50 cents per dozen; \$4.00 per 100.

THE STRAWBERRY.

The varieties we offer this year are all first class. A judicious selection from our list will give fruit from the earliest period of the Strawberry season until late in the Summer. Crescent and Henderson are good early varieties. Bubach and Haverland have no equal for mid-

season, and Gandy is the best late. We will make a selection from the following lot at \$5.00 per 1,000 to parties intending to plant largely, or will make special price on large lots upon application.

CRESCEENT.

This is beyond question a wonderful berry. In size it is medium to large; in color brilliant and handsome. It bears immense crops, even in weeds and grass. It is an "iron-clad" for the sun or rain, cold or heat. The great trouble with most growers is that they allow the Crescent to spread too much. In order to produce best results the rows should not be allowed to get over twelve to fourteen inches wide, and then if the plants get too thick in the rows, take a hoe and cut out some of the plants, allowing each plant three inches of ground. By so doing you will get better fruit and more quarts to the acre. 25 cents per dozen; 75 cents per 100.

LOVETT'S EARLY.

The fruit is of the largest size, long and little shouldered, bright scarlet, with smooth surface and yellow seeds; in quality it is as good as Sharpless and stands shipping well; it colors all over at the same time, as early as the earliest, with perfect blossom; and for vigor, hardiness and productiveness it surpasses other varieties originated in Kentucky. 25 cents per dozen; 75 cents per 100.

GANDY.

This is the best and finest late Strawberry yet introduced, and we find it to be the favorite late variety with fruit growers all over the country. By its use the season of Strawberries is extended by nearly two weeks. The berries are of large, uniform size and shape, of bright crimson color, are very handsome and showy, of superior quality, very firm, and ripen two weeks after Sharpless. For the home table it is invaluable, in fine quality, beauty and size rendering it a universal favorite. 25 cents per dozen; \$1.00 per 100.

PARKER EARLY.

It produces wonderful crops on light soils and endures hot, dry weather better than most Strawberries. The plant is a robust grower with perfect flowers; berries large, conical, regular and uniform, glossy crimson, flesh firm, reddish and in quality excellent. It is remarkably vigorous on all soils and under all conditions. 25 cents per dozen; 75 cents per 100.

LADY RUSK.

The foliage is entirely free from rust or disease; color a bright and handsome scarlet, and of most excellent flavor; it does not melt down or rot like other varieties, but dries up; the fruit is of large size, several days earlier than the Crescent, and is its superior in every respect, holding size well throughout the entire picking, and, above all, is one of the most productive varieties. 25 cents per dozen; 75 cents per 100.

HAYERLAND.

A magnificent and comparatively new variety, very early and productive, particularly in rich, deep soil. It is exceedingly vigorous and healthy, bearing very large and handsome fruit of fine quality. The shape of the berries is rather long, and of a glossy and bright crimson. 25 cents per dozen; 75 cents per 100.

BUBACH NO. 5.

Of large size and great productiveness. A prominent Strawberry grower says he has tested every variety sent out in the last twenty years, and if all varieties were culled out but ten, he would place Bubach No. 5 at the head of them on account of its large, bright, well-colored berries, its immense yield and handsome appearance and fine flavor. 25 cents per dozen; 75 cents per 100.

MICHEL'S EARLY.

This is the only Strawberry entitled to be called "early," being two weeks earlier than any other variety. It is a robust, strong grower, rooting deeply, and throwing large and luxuriant foliage on strong stems, with never a trace of rust or mildew; it yields bountifully; berries medium to large, of a handsome, regular form; color a bright scarlet; flavor exquisite, pronounced by all who have tasted it equal to the wild Strawberry. 25 cents per dozen; 75 cents per 100.

SHARPLESS.

Fruit large to very large, an average specimen measuring one and one-half inches in diameter; color a clear and bright red, with a shining surface; flesh firm and sweet; plant very vigorous. 25 cents per dozen; 75 cents per 100.

THE "HENDERSON."

The fruit is of the largest size, early, and immensely productive, but its excellent merit is its exquisite flavor; it is a strong grower and stands the dry Sunburns well. 25 cents per dozen; 75 cents per 100.

GRAPES, BERRIES, &c.

GRAPES.

We grow an assortment of the most popular Grapes vites. Fine two year old plants, 15 cents each; \$1.50 per dozen.

THE LUTIE GRAPE.

We have secured the agency for this celebrated Grape, and have purchased our entire stock of Mr. J. W. Cates, who has the original stock near Nashville, Tenn. We highly recommend the genuine Lutie Grape, which we guarantee ours to be, coming direct to us from the farm on which it originated. The Lutie is the earliest in market, never known to rot. Vine perfectly hardy, a strong grower and enormously productive. Vines two years old from cuttings have produced each twenty-five pounds of choice fruit. Flavor equal to Delaware, sweet and rich. Freedom from disease; adaptability to all kinds of soil and climate. The bunches are compact, well shouldered berries good size, very thin skin of a rich amber color; flesh sweet, melting, with a most delightful, refreshing, vinous flavor. As a table Grape it is unsurpassed, and the rich color, fine, large, beautiful bunches, making it the most desirable market variety. Strong, two year old vines, \$1.00 each.

RASPBERRIES.

50 cents per dozen; \$2.00 per 100.

Turner. Very hardy, which character makes it the favorite in the South.

Gregg. One of the best and largest.

Hausel. One of the earliest; very bright scarlet.

Cuthbert. Rich and luscious; crimson.

Schaffer's Colossal. New everbearing.

BLACKBERRIES.

Early Harvest. Very early.

Kittatinny. Large berry.

Snyder. Hardest of all. 50 cents per dozen; \$2.00 per 100.

GOOSEBERRIES.

Downing. Very large and handsome green, of splendid quality for both cooking and table use. 20 cents each; \$2.00 per dozen.

Houghton Seedling. Small to medium; pale red, roundish oval; sweet, tender and good. 20 cents each; \$2.00 per dozen.

CURRENTS.

Large, two-pence, 15 cents each; \$1.50 per dozen.
Red Dutch. Oh reliable sort.
White Grape. The best white.
Black Naples. Good old variety.

CRANDALL TREE CurrANT.

Large berries, nearly three-fourths of an inch in diameter, no other small fruit approaches it in productiveness. It is absolutely proof against the Currant worm and other insect enemies. For all culinary purposes, either for pies or sauce, green or ripe, and for jam or jelly when ripe, it has no superior on account of its delicious flavor, peculiar to itself, although some like Huckleberry, but more acid, giving it more character. We think it is the very best fruit of its season for pies, and we use no other; far better than any other small fruit. When cooked, the seeds almost entirely disappear. We have had hundreds taste of pie of Crandall Currants, and all liked it; nearly all pronounced it the best pie they ever ate, and jelly made from this Currant is delicious to a degree beyond description. It grows to the height of 30 or 42 feet, and makes a handsome tree. 75 cents each.

LUCRETIA DEWBERRY.

Claimed to be the best of the Blackberry family. As hardy as Stayder; as productive as any. The berries are far larger, and incomparably better than any Blackberry, and of unequalled excellence, soft, sweet and luscious throughout; of brightles, glossy black color. The Loretta Dewberry has received the endorsement and highest praise from the best horticulturists in the country. Its eminent success in all soils, from Maine to California, from Minnesota to Florida, is meeting phenomenal in small fruit culture. Its trailing habit renders it less liable to winter kill. \$1.00 per dozen.

THE JAPANESE WINEBERRY.

There has been few novelties introduced in this country that are more interesting or beautiful in their way than the Japanese Raspberry, brought out recently under the name of Wineberry. The names of this interesting plant are large, robust and entirely hardy here; they are thickly covered with purplish red hairs, which extend along the stem to the extremity. The leaves are large, tough dark green above and silvery gray beneath. Each berry is at first encircled by the large calyx, forming a sort of burr, which is also covered with purplish red hairs so thickly as to present the appearance of a moss rosebush. These gradually open and turn back, exposing the fruit in all its beauty. The berries are of medium size as compared with our Raspberries, but of a beautiful, translucent appearance, running through all the shades of amber to crimson as they ripen. There is a freshness and brilliancy about them impossible to describe, a nd we know of nothing in the way of Raspberries so attractive. A bush in full fruiting is a sight not readily to be forgotten and a decided ornament to the garden. In quality it is good, with a rich and sprightly flavor, but decidedly brisk subacid. When cooked it is simply grand, surpassing by far, when canned, all other fruits. \$1.50 per dozen.

GOLD FISH.

The Gold Fish was introduced into the United States many years ago from China. In recent years a superior stock has been introduced from Japan, possessing more brilliant color and of fantastic shapes. Some are red and white (pearl); others of all or part of these colors and

marked with black. In shape, some are long and some are round bodied, some have fan-like tails, some straight tails, and others three-lobed tails, etc. There is nothing more attractive in a room than Gold Fish, and there is but little trouble in keeping them. Change the water two or three times a week, river or cistern water will do, and clean the bowl once a week. Feed the fish wafer crackers, a little at a time. They can be sent any distance by express in tin cans at buyer's risk. We have collected a very interesting stock of these favorite little household pets. We will send a handsome pair of Gold Fish and a large two-gallon glass globe, amply large enough for a pair of our largest fish, for \$3.00, securely packed, by express.

PLAIN GOLD FISH.

Bronze, Red, Pearl and Variegated. Finely colored plain Gold Fish, 50 cents each.

CHINESE MOON FISH.

These are the fringed-tailed Gold Fish. Superior to the ordinary Gold Fish by their large fringed tail of most gorgeous colors. The most graceful of all fish. They are rich bronze, red, pearl, black tipped fins and variegated. 75 cents each.

CHINESE FAN TAILS.

These are brilliant and almost transparent fish with a most graceful tail, triangular in form, having three lobes or, as it appears, three different tails. The most graceful of all fish, \$1.00 each.

THE PARADISE FISH.

This fish has only recently been introduced into the United States. As the Bird of Paradise is the most graceful and beautiful among the feathered tribe, so this may well be considered the most beautiful among the fishes. The male, which is most brilliant in color, does not exceed, when full grown, four inches in length. The predominant color is blueish-green, the other colors are orange, red, gray and black. The large fins, dorsal and ventral, also the tail, are very beautifully marked, especially when the sun is shining on it; it seems to give out every imaginable color. Old, finely colored fish \$3.00 per pair. Nice young fish, 75 cents each.

FISH GLOBES.

We have a nice lot of Globes suitable for fish of all kinds, large enough to hold two gallons of water. Standing Globes on stout pedestal that make a handsome ornament in a hall or sitting-room, \$2.00 each, packed securely for express.

Shipping cans for fish, 45 cents each for two to six fish, larger cans in proportion. As many as one hundred are shipped in a ten gallon can, with about eight gallons of water. Cans charged at cost price, or money for same will be refunded if they are returned with expressage paid.

BEAUTIFUL FOWLS.**BRONZE TURKEYS.**

In addition to our large stock of beautiful Peacock Fowls, we have now a flock of magnificent Bronze Turkeys of the finest breed, and offer a limited number of fowls and eggs this Spring. Where these fine birds have plenty of grass, they do not disturb the vegetable garden but destroy immense numbers of caterpillars and tobacco worms, and all kinds of insects. Prices of our Bronze Turkeys, capped and delivered, at express office; For a pair of large fine fowls, \$9.00; for a trio of large fine fowls, \$12.00; for 13 eggs, packed, \$5.00; for 7 eggs, packed, \$3.00.

PEA FOWLS.

We have a limited number of these highly ornamental birds that we take great pleasure in offering to our patrons. There is nothing more beautiful on large grounds than the brilliant plumage of Pea Fowls strutting among the evergreens and trees. Everybody that visits our place are delighted with the effect. Our stock has grown too numerous for our place at present and we wish to dispose of some of them. The birds have to be three years old before their long and beautiful tail is fully grown and their plumage at its prettiest. They live for many years; we have some here fifteen years old, and their plumage is as gay as ever. Price, per pair, one year old, \$5.00; two years old, \$10.00. Peacocks, three years old, with full tail and handsome plumage, \$5.00. Can be shipped in crates by express.

LAWN GRASS MIXTURE.

Our preparation of Lawn Grass has given great satisfaction to all who have used it. It produces a beautiful lawn and stands the Summers admirably. Finest prepared, per bushel, \$3.00; per peck, \$1.00.

CUT FLOWERS.

We have at all seasons a quantity of beautiful cut flowers and designs suitable for all occasions. If you want a funeral design, marriage offering, or commencement banquet, or basket or box of loose cut flowers, write or telegraph us, stating the purpose for which it is required, and we will send something both pretty and appropriate.

FLOWER POTS.

These are carefully packed in barrels and delivered to the express or freight office, and received for: they are then at purchaser's risk.
 2½ inch, 46 cents per dozen; \$2.50 per 100.
 4 inch, 69 cents per dozen; \$1.00 per 100.
 6 inch, \$1.00 per dozen; \$7.00 per 100.
 7 inch, \$1.25 per dozen; \$8.00 per 100.
 8 inch, '5 cents each; \$1.50 per dozen.
 10 inch, 25 cents each; \$2.50 per dozen.
 12 inch, 50 cents each; \$5.00 per dozen.

CHRYSANTHEMUM POTS.

We have a great demand for large pots for growing specimen Chrysanthemums in, and as these large pots are heavy, easily broken, and expensive, we here state for our customers' benefit that an ordinary water bucket, with the handle taken off and a few holes bored in the bottom, makes an ideal Chrysanthemum bucket. If painted nicely on the outside they are even more ornamental than an ordinary flower pot, as well as being light, cheap and not easily broken. We grow hundreds in such buckets, and everybody admires them, and the idea is fast being taken hold of by all Chrysanthemum growers. We have the buckets all ready for use. Being light, unlike pots they can be sent by express, \$1.50 per dozen.

The Transplanting Trowel.

This new tool is the finest thing for garden work we have ever seen. For transplanting, lifting or setting Plants or Bulbs, it has no

equal. We are so much pleased with it that we have arranged to supply them to our customers by mail, postpaid, at 25 cents each.

A FINE BOOK.**Southern Floriculture.**

Few enterprises have given more complete satisfaction than the publication of this instructive little volume. The numerous complimentary letters we have received concerning it are ample proof that our labor upon it has not been in vain. It is a practical and scientific treatise on the classification, selection, propagation, soil, care, insect and fungous diseases of all plants cultivated for flowers in the South, with hints on their origin and introduction.

THE CHAPTERS ON ROSES AND CHRYSANTHEMUMS

are alone worth the price of the book. It exposes the humbuggs in floriculture, and is especially dedicated to the flower loving ladies of the South. No lovers of flowers can afford to be without it. It tells just what you want to know about the many perplexing questions that come up every day in the culture and care of flowers. It is replete with information that everybody who cultivates but a few flowers should know. It contains 312 pages and

FIFTY-EIGHT FINE ILLUSTRATIONS.

It is the only book of the kind for the South. In order that our numerous patrons may share in the pleasure that it has already afforded a large number of readers, we are determined to make the price sufficiently low so as to place it within the reach of all. We have an edition neatly bound in paper that we offer at

THIRTY CENTS EACH.

Handsomely bound in cloth, gold embossed, \$1.00 mailed free on receipt of price.

Lady Agents Wanted. We would like to have a lady agent in every town in the South to handle this book. It sells rapidly, and any lady of bush can make good money at it, as we pay a good commission. Correspond with us for particulars.

OUR CATALOGUE.

This Catalogue is mailed to all our customers and to all new addresses that we have received during the past year. Parties that have heretofore received this Catalogue, and whose names fail to appear on our order books, will not receive a copy this Spring unless application is made for it. We are always glad to send our Catalogue to anybody it will interest, whether they are buyers or not, and always glad to have our friends send us names of their friends or others that they know to be interested in flowers so we can mail them a copy. As this Catalogue is mailed from our order books, some customers may receive two copies on account of their name appearing in two or more places on our books. In such cases, we ask them to kindly hand the extra copy to some friend. Don't forget to send us names, as we want to get up a new list. We are sorry to drop the old ones, but would not have done so if we thought they were interested in it.

Bulbs for Fall Planting.

The following bulbs should be ordered only in Fall. At this season of the year they are in a growing condition, and many of them in bloom, and cannot be dug and shipped with advantage. Orders may be placed now for delivery in October.

Dutch Hyacinths. Named. For forcing in pots or glasses. Double Red, all shades, Pure White, Blue, all shades, 10 cents each, 75 cents per dozen; Pure Yellow, 10 cents each, \$1.00 per dozen. Single—Red, all shades, Pure White, Blue, all shades, Pure Yellow, 10 cents each, 75 cents per dozen.

Roman Hyacinths. Unnamed, in separate colors, for grouping or massing. Single and double Red, White, Blue and Yellow, 75 cents per dozen, \$5.00 per 100.

Cheap Mixed Hyacinths. Where a supply of bulbs is required for bedding and a nice assortment of varieties desired rather than a specified number of any particular color, this is by far the cheapest and most popular way to secure a good display. They are all fine large bulbs, all varieties mixed together; an excellent assortment, 5 cents each; 50 cents per dozen; \$1.00 per 100.

Roman Hyacinths. These are the most popular of all bulbs for Winter flowering, are of the easiest culture and can be had in bloom at any month through the Winter. Plant in October for Christmas blooming. Every lady that has a pit or crecheion should grow at least a few of these. Pure White, 1st size, 10 cents each, 75 cents per dozen; Pure White, 2d size, Rose and Blue, 5 cents each, 50 cents per dozen; Yellow, 15 cents each, \$1.25 per dozen.

Single Early Tulips. Finest named Single Early Tulips for bedding or pot culture. Can be had in Pure White, Yellow, Scarlet, Rose, Striped and Variegated, 30 cents per dozen; \$2.25 per 100.

Double Tulips. Finest named Double Tulips in all the leading colors, 5 cents each; 50 cents per dozen; \$3.00 per 100.

Parrot Tulips. The finest mixed varieties, 5 cents each; 30 cents per dozen; \$2.00 per 100.

Crocus. Finest named varieties; a fine assortment of colors, 15 cents per dozen; 75 cents per 100.

Crown Imperials. Finest mixed, all shades of Red, 15 cents each; \$1.50 per dozen.

Narcissus. Van Sion, Yellow, 5 cents each, 50 cents per dozen; \$3.00 per 100; Alba Plena, Double White, Paper White, Double Roman, 5 cents each, 40 cents per dozen, \$2.50 per 100; Grand Monarch, White, extra large, 10 cents each, 75 cents per dozen.

Chinese Narcissus. Flower of the Gods, or Sacred Lily. There is no flowering bulb so popular as this. It is of the easiest cultivation; anyone can succeed with it. They are usually grown in a vase or dish about three inches deep, with a little sand or gravel to hold them in place, then fill up with water. For a window ornament they are unequalled, and lend to an interior a cheerful aspect; no household should be without one or two of these. They are grown, according to an ancient custom, by the Chinese to herald the advent of the new year, and as a symbol for good luck. Our bulbs are imported direct from China, and are of the first quality. They do well in ordinary living rooms, but must be kept away from gas, which causes the flowers to blight. 20 cents each by mail; if ordered by express, three for 50 cents.
